

TOWN OF DRUMMOND

Bayfield County
Drummond, Wisconsin 54832

TOWN MEETING OF ELECTORS: February 10, 2016.

The meeting was called to order in the Civic Center at 6:30 pm by chairman Roy Bloom. There were 12 electors in attendance.

The town board made an offer to purchase 2 lots on Front Street for the purpose of building a new firehall. A negotiated offer of \$18,000.00 was accepted by the seller. The purchase price was not considered in the 2016 budget because of the uncertainty that the purchase would even happen. It was discussed during budget work last fall that if the purchase transpired, reserves from the general buildings designated fund would be utilized.

Chair Bloom stated the original plan was to consider building on existing Town property on Drummond Lake Road. There are no utilities located there and the cost to connect to water and sewer would far exceed the price to purchase new property with existing utilities.

Bloom also explained the Town has entered into an agreement with C&S Design to begin drafting plans for the new firehall. It will roughly be 60ft. X 80ft. The new firehall would allow the old bus garage to be used as cold storage and eliminate the need to heat that building. All equipment would then be moved into the highway shop.

Motion by Les Watters, second by Bill DeVries to approve the purchase of the land located on Front Street for the price of \$18,000.00 pursuant to WI Stats 60.10(2)(c). CARRIED on voice vote.

Motion made and carried to adjourn at 6:45 pm.
